Dear Mr. Zelikson,

Our discussions with Ms. Cleary have disclosed that your current requirements are over and above the package that was sent in October 1987. We are currently conducting core samples and working with the Water Control Board on the same subject. The test being conducted are not complete, and our search for other information is taking longer than expected. So may we request an extension to May 28, 1988, which will be thirty days.

Your cooperation on this request will be greatly appreciated.

Sincerely,

Eugene J. Fox  
Vice President, General Manager
